Freshwater Collaborative Annual Evaluation Survey 2024

Thank you for your freshwater research and programming over the past year! Your project is important for training the next generation of water professionals and addressing Wisconsin's grand water challenges.

As part of the annual evaluation process, PIs on any active grant are required to submit a report providing **progress updates and outcomes that took place between Sept. 1, 2023, and Aug. 31, 2024.**

Only one survey per project is required; however, data from all institutions should be reflected in the responses. In addition, budget numbers must be submitted for each campus that received funding. For projects with multiple PIs, any PI can complete the report. Please coordinate to gather the necessary data to complete the survey.

Please answer the questions with as much detail as possible. Data collected will be used to communicate the collective work of the Freshwater Collaborative to its academic, community, tribal, governmental, and industry partners as well as to the Wisconsin State Legislature.

If updates do not show demonstrable progress toward goals stated in the original grant proposal, the Freshwater Collaborative reserves the right to reclaim funds from the institution. For questions about this evaluation survey, please email freshwater-collab@uwm.edu.

Goals and Accomplishments

Activities and Accomplishments

What are the major activities and outcomes for this reporting period? This is your chance to brag! Be robust, specific and detailed, so we can share your accomplishments and grow the Freshwater Collaborative!

Provide details about how external partners participated in this project. For example, internships, mentoring, training, etc.

What is the return on investment on this grant? Also, how did it benefit Wisconsin and how did it expand the state's water workforce?

Have you achieved the project goals?

- Yes
- No
- Partially

What goals or objectives from your initial proposal have not been accomplished fully? What prevented your team from realizing the goals? If the project is continuing and still being worked on, write n/a.

Were there any challenges you faced this reporting period? How did you adjust to these challenges? Do you have suggestions for how the Freshwater Collaborative could help?

Are there any students or project highlights we can feature? Did you have students who gained special skills or got a great job because of your program? Did this project lead to an interesting partnership? Please provide a brief summary to give us context and include contact information so the Freshwater Collaborative marketing manager can follow up.

Additional Questions

Please describe how you recruited students to participate or enroll, including specifics of students groups and organizations.
(I.e. mail, student email lists, giving advisors course information, posting information on campus, direct outreach to educators, etc.)

How did this grant incorporate diverse perspectives, including under-represented groups in the water sector?

Under-represented groups include: Asian, Black, first-generation college, Indigenous, Latinx, LGBTQIA+, low-income, Pacific Islander, people with disabilities, rural populations, and veterans.

Is there any other information you would like to share about your program?

Please upload any relevant data or materials here (photos, course syllabi, additional examples, student feedback surveys, student poster presentations, etc.) To upload multiple files, compress individual files into a ZIP file before uploading.

Do not submit any documents with student personal identifiable information.
