

- ★ Are you interested in **river restoration**?
- ★ Do love **hands-on training experiences**?
- ★ Have you heard about the **dams in River Falls** and want to learn more about the plans for their removal and restoration of the Kinnickinnic River?

Apply to the DAM Crew!

- ★ **Meet professionals** in river restoration and environmental consulting.
- ★ **Learn and practice field methods** to monitor the health of the Kinnickinnic River, including vegetation, channel morphology, habitat quality, water quality, and sediment transport.
- ★ **Collect, analyze, interpret, and share scientific data.**
- ★ **Have FUN while learning!!**

Participation is FREE for selected applicants. Funds are also available to help with food and travel expenses.

The DAM Crew is a FUN two-week, intensive, NON-credit experience for rising sophomores, juniors, and seniors at any UW campus with an interest in environmental/water-related issues. The experience will include a mix of in-class and hands-on learning. Students will assist in documenting the impacts of dam removal on the Kinnickinnic River in River Falls, WI by collecting scientific monitoring data. The DAM Crew will take place at **UWRF July 28-Aug 8, 2025** (not including the weekend). If you have questions please email Dr. Coleman Wasik at: jill.colemanwasik@uwrf.edu

Fill out an application by MAY 20th at 1159pm
